Note from DWR: The groundwater level data presented are the closest measurement to the target dates of 3/15, 6/15, 9/15, or 12/15 (within 15 days before) for the respective quarterly report. The record is left blank if no data was recorded for that time-period. These data are queried from the Periodic Groundwater Level Measurements data set that is available on the California Natural Resources Agency Open Data (https://data.cnra.ca.gov/dataset/periodic-groundwater-level-measurements). This data set includes manual measurements and automated hourly groundwater level data uploaded via telemetry. Although efforts are made to ensure the accuracy of the data, these data may include water levels that are impacted by instrument malfunction as well as local conditions, such as the pumping of nearby wells, that are not documented. For a more complete depiction of groundwater conditions, full records of groundwater level data can be viewed on the Water Data Library (https://wdl.water.ca.gov/waterdatalibrary/Map.aspx) or the SGMA Data Viewer (https://sgma.water.ca.gov/webgis/?appid=SGMADataViewer#currentconditions). Groundwater level data provided by the Department of Water Resources, Northern Region Office. Report designed in cooperation with the University of California Department of Agriculture and Natural Resources, Cooperative Extension - Glenn County Office, Curt Pierce Water Resources Advisor, calpierce@ucanr.edu . For questions or additional information, please contact Debbie Spangler at debbie.spangler@water.ca.gov .
